

Caring 4 You Nursing Services

VARICELLA QUESTIONNAIRE

This Questionnaire is a Caring 4 You Nursing Services EMPLOYMENT REQUIREMENT designed to determine your history of Varicella a.k.a. chickenpox. Please complete all of the following questions to the best of your knowledge.

It is recommended that healthcare workers, teachers of the young, daycare workers, college students, those who travel Internationally, confined to institutional settings or in the military obtain the vaccine which was introduced in 1995.

Chickenpox is an infectious disease caused by the Varicella, a virus of the herpes family. The transmission is spread by coughing, sneezing, direct contact and considered highly contagious.

An individual is contagious for 1-2 days followed by 10-21 days before symptoms appear. Individuals who may not be able to take the vaccine have a preventative treatment called Varicella Zoster Immune Globulin [VZIG].

For more information, contact the National Immunization Hotline - (800) 232-2522.
